Notable Projects

Dinemate Application Design

Februray 2025- April2025

- Designed the complete visual identity and user interface for Dinemate, a table reservation app focused on user-friendliness and smart recommendations.
- Conducted user research and distributed surveys to gather insights and pain points related to restaurant reservations.
- Simplified the table booking experience into a 3-step flow, allowing users to select their table directly from the restaurant's floor plan.
- Designed the app to be fully functional without requiring sign-up, ensuring quick and easy access for new users.
- Implemented an advanced search and filtering system based on food type, restaurant section, rating, distance, opening hours, and pricing.
- Integrated personalized restaurant suggestions using previous search and reservation history to enhance user engagement and discovery.

Capitano Packaging Design

September 2024- Februrary 2025

- Designed a coffee packaging concept from scratch, aiming to break away from stereotypical and overused visuals in coffee branding.
- Developed a unique narrative around a captain character inspired by Christopher Columbus, portraying him as an explorer on a journey to discover coffee.
- Chose a clean white background for the packaging to stand out on shelves and convey a sense of organic quality and simplicity.
- Conducted extensive research by analyzing a wide range of coffee packaging in supermarkets and reviewing award-winning designs, including Pentawards recipients, to inform the creative direction.
